

TAKING A TEST DRIVE WITH UNDERWOODS

Effective 1st June 2020 until further notice

Dear customer,

Due to social distancing restrictions we cannot currently accompany you when taking a test drive.

We must therefore adhere to the following measures;

- We will define a recommended route (see maps overleaf).
- Test drive must take no longer than 20 minutes.
- You must provide a driving licence and utility bill which we will copy and keep for insurance purposes.
- You must provide your National Insurance Number so we can validate your driving license with DVLA.
- You will be asked to sign a document confirming you are taking the test drive in our vehicle.
- You must be over the age of 21 years old and held a full UK (or European) driving license for at least 12 months.
- You cannot test drive if you;
 - hold more than 6 penalty point on your license in the past 3 years
 - have been disqualified for driving in the past 3 years
 - had any restrictions placed on your licence ever

For your protection we will sanitise the vehicle touch points and car key before the test drive.

The vehicle will be pre-checked to ensure there are no known faults or warning lights displayed. The vehicle will be fuelled.

We thank you for your cooperation.
